Lessons 09 – 21 | Select All That Apply

2 correct answers per question | Correct answers highlighted

ARISE — Adolescent Reproductive Health & Integrated Skills Education
Generated May 2026

Lesson 09 — Gender-Based Violence

1. Which of the following are TRUE about Gender-Based Violence (GBV)?

A. Gender-Based Values

☒ B. Gender-Based Violence

C. General Body Violations

☒ D. GBV includes physical, sexual, emotional, and economic violence based on gender

Correct: B | D

2. Which of the following are forms of GBV?

A. Playing football

B. Studying together

☒ C. Forced marriage

☒ D. Economic abuse — controlling a woman's access to money, employment, or financial resources

Correct: C | D

3. Which of the following explain why FGM causes permanent harm?

A. Is a hygiene practice

☒ B. Removes healthy genital tissue causing lifelong pain

C. Is medically approved

☒ D. FGM violates the right to health, bodily integrity, and is classified as gender-based violence

Correct: B | D

4. Which of the following are appropriate actions when you witness GBV?

A. Stay silent

B. Post on social media

☒ C. Report to a trusted adult or authority

☒ D. Contact Childline Kenya (116) or a local Gender Violence Recovery Centre (GVRC)

Correct: C | D

5. Which of the following are examples of emotional abuse?

A. Giving gifts

☒ B. Constant insults, threats, and humiliation

C. Helping with chores

☒ D. Gaslighting — making someone doubt their own memory and perception of events

Correct: B | D

6. Which of the following correctly describe genuine consent?

- A. Forced agreement
- B. Agreement under alcohol

☒ C. Free, informed, and reversible agreement

☐ D. Consent requires an enthusiastic clear "yes" — silence or absence of "no" does not mean yes

Correct: C | D

7. Which of the following correctly describe Kenyan laws that protect against sexual violence?

- A. Land Act
- B. Traffic Act

☒ C. Sexual Offences Act 2006

☐ D. The Children Act 2001 also protects children from sexual exploitation and all forms of abuse

Correct: C | D

8. Which of the following are TRUE about who GBV affects?

- A. Only girls
- B. Only rural areas

☒ C. All genders across all communities

☐ D. GBV disproportionately affects women and girls — over 70% of reported cases globally

Correct: C | D

9. Which of the following correctly describe a passive bystander?

- A. Reports violence immediately

☐ B. Sees harm and does nothing

- C. Calls the police

☐ D. A silent bystander who laughs along normalises and enables abusive behaviour

Correct: B | D

10. Which of the following provide help to GBV survivors in Kenya?

- A. Bus stations

☐ B. Gender Violence Recovery Centres (GVRCs)

- C. Internet cafes

☐ D. Childline Kenya (116) also connects GBV survivors to local support services

Correct: B | D

Lesson 10 — HIV & STIs

1. Which of the following are TRUE about HIV?

A. Human Immunity Virus

☒ B. Human Immunodeficiency Virus

C. High Infection Virus

☒ D. HIV attacks and destroys CD4 T-cells, gradually collapsing the body's immune defences

Correct: B | D

2. Which of the following are TRUE about AIDS?

A. The person gains weight

☒ B. The immune system is severely damaged and opportunistic infections occur

C. The virus disappears

☒ D. Without ARV treatment, AIDS typically develops within 10 years of HIV infection

Correct: B | D

3. Which of the following are routes through which HIV is transmitted?

A. Sharing food or drinks

B. Mosquito bites

☒ C. Unprotected sex, infected blood, and mother-to-child

☒ D. Breastfeeding by an HIV-positive mother without preventive ARVs can transmit HIV to her infant

Correct: C | D

4. Which of the following correctly describe what ARVs (antiretrovirals) do?

A. Cure HIV completely

☒ B. Control HIV, allowing people to live long healthy lives

C. Prevent HIV infection

☒ D. ARVs taken correctly reduce viral load to undetectable levels — making a person effectively non-infectious

Correct: B | D

5. Which of the following STIs are caused by bacteria and can be cured with antibiotics?

A. HIV

B. Herpes

☒ C. Gonorrhoea

☒ D. Syphilis — another bacterial STI fully curable with penicillin antibiotics

Correct: C | D

6. Which of the following are effective ways to prevent HIV/STI transmission through sex?

- A. Washing after sex
- B. Guessing safe days

☒ C. Abstinence

☒ D. Consistent correct condom use — the most effective method for sexually active people after abstinence

Correct: C | D

7. Which of the following are TRUE about PrEP?

- A. Pre-Recorded Exposure Plan

☒ B. Pre-Exposure Prophylaxis

- C. Post-Rapid Exposure Prevention

☒ D. PrEP reduces HIV infection risk by over 99% when taken consistently every day

Correct: B | D

8. Which of the following explain why HIV-related stigma is harmful?

- A. It helps people recover faster

☒ B. It discourages people from testing and seeking treatment

- C. It makes HIV tests more accurate

☒ D. HIV stigma causes people to delay testing for months or years, allowing the virus to progress

Correct: B | D

9. Which of the following are TRUE about HIV testing for adolescents in Kenya?

- A. Illegal under 18

☒ B. Available free at public health facilities

- C. Expensive and requires parental consent

☒ D. HIV testing results are fully confidential — not shared with parents, schools, or employers

Correct: B | D

10. Which of the following are TRUE about an HIV-positive person living on ARVs?

- A. Never have children

- B. Never work or go to school

☒ C. Live a long healthy life, work, study, and have children

☒ D. With an undetectable viral load on ARVs, an HIV-positive person cannot sexually transmit the virus

Correct: C | D

Lesson 11 — Life Skills

1. Which of the following accurately describe life skills?

A. School subjects like maths and science

☒ B. Abilities that help you handle challenges and make responsible decisions

C. Sports and physical activities

☒ D. Life skills include decision-making, critical thinking, empathy, and coping with emotions

Correct: B | D

2. Which of the following are key elements of effective communication?

A. Talking as much as possible

☒ B. Sending, receiving, and understanding messages clearly

C. Using complex vocabulary

☒ D. Effective communication also includes understanding non-verbal cues like body language and tone

Correct: B | D

3. Which of the following correctly describe active listening?

A. Waiting for your turn to speak

☒ B. Fully concentrating on the speaker, understanding, and responding thoughtfully

C. Nodding without listening

☒ D. Active listening includes asking clarifying questions and reflecting back what you heard

Correct: B | D

4. Which of the following communication styles are most healthy?

A. Aggressive — dominating the conversation

B. Passive — never expressing your feelings

☒ C. Assertive — expressing yourself clearly and respectfully

☒ D. Assertive communication uses "I" statements: "I feel... when..." — without blaming others

Correct: C | D

5. Which of the following are effective ways to handle peer pressure?

A. Always doing what your friends do

☒ B. Using assertive refusal skills and offering alternatives

C. Avoiding all social situations

☒ D. Calmly walking away with a pre-planned exit line is also an effective peer pressure response

Correct: B | D

6. Which of the following explain why a trusted adult is important?

A. They always agree with you

☒ B. They can provide guidance, support, and connect you to help

C. They know all the answers

☒ D. A trusted adult can help navigate crises safely and connect you to professional services

Correct: B | D

7. Which of the following correctly describe problem-solving steps?

A. Act → Identify → Evaluate

☒ B. Identify → Generate options → Choose → Act → Reflect

C. Guess → Try → Forget

☒ D. Reflecting on the outcome after acting improves your decision-making skills over time

Correct: B | D

8. Which of the following are examples of non-verbal communication?

A. Text messages

☒ B. Body language, facial expressions, eye contact, and tone

C. Phone calls only

☒ D. Tone of voice accounts for approximately 38% of the meaning in face-to-face communication

Correct: B | D

9. Which of the following correctly describe empathy in communication?

A. Feeling sorry for someone

☒ B. Understanding and sharing the feelings of another person

C. Ignoring others' problems

☒ D. Empathy requires setting aside your own perspective to genuinely understand another's experience

Correct: B | D

10. Which of the following are appropriate responses when a friend shares a personal problem?

A. Change the topic quickly

☒ B. Listen actively, acknowledge feelings, then offer support

C. Tell everyone else immediately

☒ D. Asking open-ended questions ("How are you feeling about this?") shows genuine presence and care

Correct: B | D

Lesson 12 — Self-Awareness

1. Which of the following correctly describe self-awareness?

A. Knowing everyone else's feelings

☒ B. Understanding your own thoughts, feelings, strengths, and weaknesses

C. Being selfish

☒ D. Self-awareness helps you recognise how your behaviour affects others and take responsibility

Correct: B | D

2. Which of the following correctly describe self-esteem?

A. How tall you are

B. How much money you have

☒ C. How you feel about your own worth and value

☒ D. Low self-esteem makes people more vulnerable to peer pressure and unhealthy relationships

Correct: C | D

3. Which of the following correctly describe a healthy personal boundary?

A. A wall that keeps everyone away

☒ B. A rule that clarifies what you are and are not comfortable with

C. Always saying yes to others

☒ D. Setting clear boundaries is an act of self-respect that protects your physical and emotional wellbeing

Correct: B | D

4. Which of the following are TRUE about having high self-esteem?

A. Follow peer pressure easily

B. Seek validation from everyone

☒ C. Make confident, independent decisions and resist peer pressure

☒ D. People with high self-esteem recover better from failures without losing their sense of worth

Correct: C | D

5. Which of the following are components of emotional intelligence?

A. Being smart only in maths

☒ B. Recognising, understanding, and managing your emotions and others'

C. Never showing emotions

☒ D. High emotional intelligence improves relationships, mental health, and conflict resolution

Correct: B | D

6. Which of the following explain why values are important?

A. Tell you what clothes to wear

☒ B. Guide your decisions and behaviour, especially under pressure

C. Are decided by your friends

☒ D. Core values — honesty, respect, courage — form the foundation of personal identity and self-respect

Correct: B | D

7. Which of the following explain why negative self-talk is harmful?

A. Helps you improve

☒ B. Lowers self-esteem and increases anxiety and depression risk

C. Makes others like you more

☒ D. Replacing negative self-talk with compassionate statements is a core cognitive behavioural strategy

Correct: B | D

8. Which of the following correctly describe setting a boundary with a friend?

A. You hate them

☒ B. Calmly explaining what you can and cannot do going forward

C. Ending the friendship immediately

☒ D. Healthy boundaries include the right to say "I need time to think before I respond to that"

Correct: B | D

9. Which of the following are effective ways to discover your personal strengths?

A. Waiting for others to tell you

☒ B. Reflecting on what you enjoy, what you do well, and what others appreciate about you

C. Copying your most popular classmate

☒ D. Journaling your daily reactions helps identify emotional patterns and personal strengths over time

Correct: B | D

10. Which of the following explain how assertiveness differs from aggression?

A. Gets what you want at any cost

☒ B. Expresses your rights while respecting others' rights too

C. Involves raising your voice

☒ D. Assertiveness means being direct and honest — using calm, clear language and confident eye contact

Correct: B | D

Lesson 13 — Peer Education

1. Which of the following correctly describe peer education?

A. Teachers educating younger students

☒ B. Young people sharing health and life knowledge with their age-mates

C. Parents advising their children

☒ D. Peer education is most effective for health topics where young people feel embarrassed to ask adults

Correct: B | D

2. Which of the following explain why peer educators are effective?

A. They are older than the students

☒ B. They share similar experiences and language, making messages relatable

C. They are paid professionals

☒ D. Peer educators use youth-friendly language and real-life scenarios that resonate with their age group

Correct: B | D

3. Which of the following are qualities of a good peer educator?

A. Be popular on social media

☒ B. Have accurate knowledge and model healthy behaviour

C. Know everyone's secrets

☒ D. A peer educator must also be trustworthy, non-judgmental, and willing to refer to professional help

Correct: B | D

4. Which of the following correctly describe confidentiality in peer education?

A. Sharing everything you hear with friends

☒ B. Keeping personal information private unless there is a safety risk

C. Never keeping any secrets

☒ D. When safety is at risk, confidentiality can be broken — this is called a safeguarding override

Correct: B | D

5. Which of the following are peer education methods?

A. Formal exam setting

☒ B. Drama, role-play, and discussion circles

C. Lecturing for 2 hours

☒ D. Small group activities and storytelling make sensitive health topics more accessible and memorable

Correct: B | D

6. Which of the following are appropriate responses when a peer says something factually wrong?

- A. Embarrass them publicly
- B. Stay silent to avoid conflict

☒ C. Gently correct with accurate information and a reliable source

☒ D. After correcting misinformation, offer a reliable source — like WHO Kenya or Ministry of Health

Correct: C | D

7. Which of the following correctly describe positive peer influence?

- A. Pressuring friends to follow your lifestyle

☒ B. Encouraging friends to make healthy, responsible choices

- C. Copying whatever is popular

☒ D. Positive peer influence uses social connection to reinforce healthy norms within the group

Correct: B | D

8. Which of the following correctly describe referral in peer education?

- A. Sending a friend to the library

☒ B. Directing a peer to a professional or service that can help them

- C. Writing a recommendation letter

☒ D. When referring, always provide specific contact details — counsellor's name and clinic hours

Correct: B | D

9. Which of the following explain why peer education is particularly important for SRH?

☒ A. Young people prefer to learn from their peers about sensitive topics

- B. Adults know nothing about SRH

- C. SRH is not taught in schools

☒ D. Peer educators create a safe non-judgmental space where sensitive questions can be asked freely

Correct: A | D

10. Which of the following are key ethical responsibilities of a peer educator?

- A. Sharing everyone's private stories as examples

- B. Only giving your personal opinion

☒ C. Being accurate, non-judgmental, and maintaining confidentiality

☒ D. A peer educator always prioritises the person's wellbeing above winning any argument or debate

Correct: C | D

Lesson 14 — Adolescent Growth

1. Which of the following correctly describe adolescence?

A. 0–5 years

B 10–19 years

C. 20–30 years

D Adolescence is also defined as the transition period from childhood to adulthood

Correct: **B** | **D**

2. Which of the following correctly describe what triggers puberty?

A. Eating too much sugar

B Hormones released by the brain (pituitary gland)

C. Peer pressure

D The key puberty hormones are oestrogen in girls and testosterone in boys — with both present in all genders

Correct: **B** | **D**

3. Which of the following are physical changes in puberty common to BOTH boys and girls?

A. Voice breaking

B. Breast development

C Growth spurt and pubic/underarm hair

D Increased sweating and body odour are puberty changes experienced by both boys and girls

Correct: **C** | **D**

4. Which of the following correctly describe menstruation?

A. A disease that needs treatment

B The monthly shedding of the uterine lining when no egg is fertilised

C. A sign of illness

D Menstruation indicates the reproductive system is maturing and working normally

Correct: **B** | **D**

5. Which of the following correctly describe the role of testosterone?

A. Female puberty changes

B Male puberty changes including voice breaking, muscle growth, facial hair

C. Emotional mood swings in girls only

D Testosterone also causes increased muscle mass, bone density, and growth of facial and body hair

Correct: **B** | **D**

6. Which of the following explain what causes mood swings during adolescence?

A. Bad parenting

☒ B. Hormonal fluctuations affecting brain chemistry

C. Social media only

☒ D. The adolescent prefrontal cortex is still developing, contributing to emotional intensity and impulsivity

Correct: B | D

7. Which of the following are healthy responses to acne during puberty?

A. Squeezing and picking at them

B. Feeling deeply ashamed

☒ C. Regular gentle washing and seeking medical advice if severe

☒ D. Acne affects over 85% of adolescents — it is caused by excess sebum and bacteria, not poor hygiene

Correct: C | D

8. Which of the following correctly describe the identity crisis in adolescence?

A. Forgetting your name

☒ B. The process of exploring 'who am I?' — values, roles, and future

C. A mental illness

☒ D. Identity formation involves trying different values, roles, and groups — this is healthy and normal

Correct: B | D

9. Which of the following are TRUE about wet dreams (nocturnal emissions) in boys?

A. A sign of disease

B. Caused by evil spirits

☒ C. A normal part of puberty — the body's natural release of semen

☒ D. Nocturnal emissions require no treatment — they are normal physiology during puberty

Correct: C | D

10. Which of the following are appropriate sources of support for a young person during adolescence?

A. Keeping all changes secret and handling them alone

☒ B. Talking to trusted adults, peers, and healthcare workers

C. Searching only on social media

☒ D. Healthcare workers and school nurses are trained to support adolescents through puberty confidentially

Correct: B | D

Lesson 15 — Menstrual Health

1. Which of the following correctly describe the menstrual cycle?

A. The last day of one period to the last day of the next

☒ B. The first day of one period to the first day of the next

C. The middle of one period to the middle of the next

☒ D. A healthy cycle ranges from 21 to 35 days — not all women have exactly 28-day cycles

Correct: B | D

2. Which of the following correctly describe ovulation?

A. The start of menstruation

☒ B. The release of a mature egg from the ovary

C. The end of puberty

☒ D. Ovulation typically occurs around Day 14 of a 28-day cycle — the only time pregnancy is possible

Correct: B | D

3. Which of the following are TRUE about normal menstrual flow?

A. 1–2 days

☒ B. 3–7 days

C. 2–3 weeks

☒ D. Bleeding heavier or lighter than usual for more than 2 cycles should be discussed with a health provider

Correct: B | D

4. Which of the following correctly describe dysmenorrhoea?

A. Absence of menstruation

☒ B. Painful menstruation (period cramps)

C. Very heavy bleeding

☒ D. Dysmenorrhoea affects up to 90% of adolescent girls and can be managed with a warm compress and paracetamol

Correct: B | D

5. Which of the following are TRUE about menstrual cycles shorter than 21 days or longer than 35 days?

A. Perfectly normal for all girls

☒ B. Irregular and worth mentioning to a healthcare provider

C. A sign of pregnancy

☒ D. Stress, extreme exercise, or significant weight changes can also disrupt the menstrual cycle

Correct: B | D

6. Which of the following are symptoms of Premenstrual Syndrome (PMS)?

A. Only physical pain

☒ B. Mood changes, bloating, breast tenderness, and fatigue before the period

C. Fever and rash

☒ D. PMS symptoms typically appear 3–10 days before the period and resolve when menstruation begins

Correct: B | D

7. Which of the following are safe and hygienic menstrual products for school-going girls in Kenya?

A. Pieces of old clothing without washing

☒ B. Clean disposable pads or well-maintained reusable cloth pads

C. Leaves from the garden

☒ D. Menstrual cups and period underwear are also safe, cost-effective, and environmentally friendly options

Correct: B | D

8. Which of the following correctly describe period poverty?

A. Earning less money during your period

☒ B. Lack of access to menstrual products, clean water, or safe sanitation

C. A rare condition in wealthy countries only

☒ D. Period poverty affects 1 in 10 girls in Sub-Saharan Africa, contributing to high rates of school absence

Correct: B | D

9. Which of the following are reliable ways to manage mild period cramps?

A. Drinking very cold water only

☒ B. Warm compress on the abdomen, gentle exercise, and staying hydrated

C. Avoiding all food

☒ D. Paracetamol or ibuprofen can help severe cramps — see a doctor if pain is not controlled by medication

Correct: B | D

10. Which of the following are TRUE about what menstruation signifies?

A. Is sick

B. Is cursed

☒ C. Is functioning normally and is reproductively maturing

☒ D. Menstruation myths cause unnecessary shame and school absenteeism — education breaks the stigma

Correct: C | D

Lesson 16 — Reproductive Anatomy

1. Which of the following correctly describe the uterus?

- A. Ovary
- B. Fallopian tube

☒ C. Uterus (womb)

☐ D. The uterus is lined with endometrium — tissue that thickens each cycle and sheds as menstruation

Correct: C | D

2. Which of the following correctly describe where and how fertilisation occurs?

- A. The uterus
- B. The ovary

☒ C. The fallopian tube

☐ D. After fertilisation the embryo travels down the fallopian tube to implant in the uterine wall

Correct: C | D

3. Which of the following correctly describe the role of the testes?

- A. Penis
- B. Prostate gland

☒ C. Testis (testicle)

☐ D. The testes also produce testosterone — the primary male sex hormone driving puberty changes

Correct: C | D

4. Which of the following correctly describe the cervix?

- A. The outer female genitalia
- ☒ B. The lower narrow part of the uterus that connects to the vagina
- C. The organ that produces eggs

☐ D. The cervix is screened by a Pap smear to detect early signs of cervical cancer — from age 25

Correct: B | D

5. Which of the following are TRUE about how many eggs a woman releases per menstrual cycle?

- A. 10–20
- ☒ B. (occasionally 2)
- C. 100

☐ D. Women are born with all their eggs (1–2 million at birth) — no new eggs are produced after birth

Correct: B | D

6. Which of the following correctly describe the epididymis in the male reproductive system?

A. Produces the male hormone testosterone

Bs where sperm mature and are stored temporarily

C. Transports urine only

Dhe vas deferens carries mature sperm from the epididymis to the urethra for ejaculation

Correct: B | D

7. Which of the following are TRUE about when ovulation occurs in a 28-day cycle?

A. Day 1

B. Day 7

CDay 14

Dovulation timing can vary due to stress, illness, or weight changes — making safe days unreliable

Correct: C | D

8. Which of the following correctly describe the functions of the vagina?

A. Producing eggs

Birth canal, passage for menstrual flow, and reception of the penis during intercourse

C. Storing sperm permanently

Dhe vagina has a naturally acidic environment that protects against many bacterial infections

Correct: B | D

9. Which of the following are TRUE about how long sperm can survive inside the female reproductive tract?

A. 30 minutes

B5 days

C. 2 weeks

Dhis is why the "safe days" method is unreliable — sex days before ovulation can still cause pregnancy

Correct: B | D

10. Which of the following are key reasons to learn about reproductive anatomy?

A. To pass biology exams only

BTo understand your body, recognise health problems early, and make informed decisions

C. It is only relevant for medical students

Dreproductive anatomy knowledge helps make informed decisions about sexual health and contraception

Correct: B | D

Lesson 17 — FGM

1. Which of the following correctly describe FGM?

A. Female General Medicine

☒ B. Female Genital Mutilation

C. Female Growth Monitoring

☒ D. FGM is a violation of human rights and a form of gender-based violence recognised by the UN and WHO

Correct: B | D

2. Which of the following explain why FGM is harmful?

A. Is painful but heals quickly with no lasting effects

☒ B. Causes permanent physical and psychological harm with no health benefit

C. Reduces infection risk

☒ D. No medical organisation in the world approves FGM — it has been unanimously condemned globally

Correct: B | D

3. Which of the following correctly describe FGM's legal status in Kenya?

A. Land Act 2012

☒ B. Prohibition of Female Genital Mutilation Act 2011

C. Traffic Act

☒ D. The FGM Act 2011 carries penalties of up to 3 years imprisonment for performing or facilitating FGM

Correct: B | D

4. Which of the following are immediate physical complications of FGM?

A. Improved fertility

☒ B. Severe bleeding, infection, and shock

C. Better menstrual health

☒ D. Unsterilised FGM tools can also transmit HIV, tetanus, and hepatitis between victims

Correct: B | D

5. Which of the following are long-term consequences of FGM?

A. Increased sexual pleasure

☒ B. Chronic pain, difficult childbirth, fistula, and PTSD

C. Better hygiene

☒ D. Long-term FGM complications also include recurrent UTIs and painful sexual intercourse

Correct: B | D

6. Which of the following explain why communities practise FGM?

A. Medical advice from doctors

☒ B. Social and cultural norms, marriageability, and gender control

C. Scientific research findings

☒ D. FGM perpetuates gender inequality by making women's worth dependent on physical modification

Correct: B | D

7. Which of the following correctly describe 'medicalised FGM'?

A. Safe and acceptable

☒ B. Still illegal and harmful — medicalisation does not make FGM safe

C. Recommended by WHO for safety

☒ D. Medicalised FGM is condemned by WHO, UNICEF, and all major health bodies — it remains illegal in Kenya

Correct: B | D

8. Which of the following correctly describe alternative rites of passage (ARP)?

A. Circumcision

☒ B. Alternative Rites of Passage (ARP)

C. Defibulation

☒ D. ARPs celebrate a girl's transition through education and community celebration — without any cutting

Correct: B | D

9. Which of the following are appropriate actions when you know a girl is at risk of FGM?

A. Mind your own business

☒ B. Report immediately to a teacher, social worker, or call Childline 116

C. Tell the girl's mother only

☒ D. In Kenya, failing to report a known FGM case is also a criminal offence under the 2011 Act

Correct: B | D

10. Which of the following are ways boys and men can help end FGM?

A. Supporting families who practise it

☒ B. Refusing to marry only cut women, speaking out against FGM, and supporting girls

C. Staying neutral and not commenting

☒ D. Men and boys can educate male peers that FGM is not required for a girl to be marriageable

Correct: B | D

Lesson 18 — Social Media & SRH

1. Which of the following explain how social media can positively impact SRH?

A. Spreading myths and misinformation

☒ B. Providing access to accurate health information and peer support communities

C. Promoting harmful body image ideals

☒ D. Social media platforms also host peer support communities for young people facing health challenges

Correct: B | D

2. Which of the following correctly describe online grooming?

A. Sharing beauty tips online

☒ B. A predator building trust with a young person online to exploit them sexually

C. Learning to code online

☒ D. Online groomers target young people aged 11–17 on gaming platforms, social media, and messaging apps

Correct: B | D

3. Which of the following are warning signs of online grooming?

A. Someone asking for your school assignment

☒ B. An adult online who asks for private photos, wants to meet alone, or asks you to keep the friendship secret

C. Getting too many study resources

☒ D. A groomer tries to isolate the young person by encouraging secrecy and turning them against trusted adults

Correct: B | D

4. Which of the following explain why sexting (sending sexual images) is risky?

A. It uses too much data

☒ B. Images can be shared without consent, causing harm, blackmail, and legal consequences

C. It is always illegal everywhere

☒ D. Once shared online, an image can never be fully deleted — it may resurface years later causing harm

Correct: B | D

5. Which of the following are effects of comparing your body to social media images?

A. Better body image

☒ B. Body dissatisfaction, low self-esteem, and disordered eating

C. Stronger motivation to exercise healthily

☒ D. Social comparison on social media activates the same brain circuits as real-life social rejection

Correct: B | D

6. Which of the following correctly describe critical media literacy?

A. Reading only news articles

☒ B The ability to evaluate, question, and analyse media messages rather than accepting them uncritically

C. Sharing everything you read online

☒ D Critical media literacy helps identify sponsored content, deepfakes, and health misinformation online

Correct: B | D

7. Which of the following correctly describe what the Computer Misuse and Cybercrimes Act 2018 covers?

A. Only applies to adults over 21

☒ B Criminalises cyberbullying, non-consensual sharing of intimate images, and online sexual harassment

C. Is only for businesses

☒ D The Cybercrimes Act 2018 also covers online sexual exploitation of minors

Correct: B | D

8. Which of the following are healthy digital habits for adolescents?

A. Being online 24/7

☒ B Setting screen time limits, using privacy settings, and taking digital breaks

C. Sharing your location with all followers

☒ D Using strong unique passwords and two-factor authentication protects your accounts from being hacked

Correct: B | D

9. Which of the following are appropriate actions when someone shares your intimate images without consent?

A. Feel ashamed and delete all your accounts

☒ B Document it, report to Childline 116 or police, and seek support

C. Ignore it and hope it goes away

☒ D Non-consensual sharing of intimate images is a criminal offence under Kenya's Cybercrimes Act 2018

Correct: B | D

10. Which of the following explain why social media misinformation about SRH is dangerous?

A. It uses too many characters

☒ B Young people may act on false information, leading to risky behaviour or avoiding care

C. It makes social media less fun

☒ D SRH myths like "you can't get pregnant the first time" or "condoms always fail" lead to dangerous choices

Correct: B | D

Lesson 19 — Career Decisions

1. Which of the following correctly describe the first step in making a good career decision?

A. Choosing whichever career pays the most money

☒ B. Self-discovery — understanding your strengths, values, interests, and personality before exploring options

C. Following your parents' or friends' career choice

☒ D. Holland's career theory suggests matching careers to your personality leads to greater job satisfaction

Correct: B | D

2. Which of the following correctly describe TVET (Technical and Vocational Education and Training) in Kenya?

A. Is only for students who fail university entry

☒ B. Provides practical, industry-recognised qualifications in trades, healthcare, ICT, and more — often leading to employment faster than university and at lower cost

C. Is less respected than university degrees in Kenya

☒ D. TVET graduates in Kenya can earn competitive salaries — skilled artisans often earn more than graduates

Correct: B | D

3. Which of the following are skills that AI CANNOT replace in the workplace?

A. Calculating large datasets quickly

☒ B. Human empathy, ethical judgment, creative problem-solving, and leadership of people

C. Translating documents between languages

☒ D. Interpersonal communication, leadership, and emotional intelligence are skills AI cannot replicate

Correct: B | D

4. Which of the following career sectors are large employers and growing opportunities for young people in Kenya?

A. Tech startups only

☒ B. Agriculture and agri-business — employing over 40% of Kenyans and transforming with modern techniques

C. International airlines

☒ D. Blue economy sectors — fisheries, tourism, and marine resources — offer growing career opportunities

Correct: B | D

5. Which of the following correctly describe entrepreneurship as a career path in Kenya?

A. Is only possible with large amounts of start-up capital

☒ B. Is a legitimate and growing path — especially with mobile money (M-Pesa), low-cost digital tools, and youth enterprise funds available

C. Rarely succeeds in Kenya

D Youth enterprise funds (YEDF, Uwezo Fund) and SACCO cooperatives provide startup capital for young entrepreneurs

Correct: B | D

6. Which of the following correctly describe the Kenyan Jua Kali sector?

A. A government ministry for weather

B The informal economy of artisans, craftspeople, welders, mechanics, tailors, and small manufacturers — a major source of employment and income

C. A type of university scholarship

D The Jua Kali sector contributes approximately 18% of Kenya's GDP and employs over 7 million people

Correct: B | D

7. Which of the following correctly describe 'lifelong learning' in the context of career planning?

A. Studying at university for many years without stopping

B Continuously developing new skills and knowledge throughout your career — because the job market changes and those who stop learning get left behind

C. Reading the same books every year

D The World Economic Forum predicts 65% of today's students will work in jobs that don't yet exist

Correct: B | D

8. Which of the following correctly describe a mentor in career development?

A. Someone who does all your career planning for you

B An experienced person in your field of interest who shares knowledge, opens doors, and guides your growth — one of the most valuable career assets

C. A person who only gives you money for your business

D A good mentor also introduces you to their professional network, opening doors to opportunities

Correct: B | D

9. Which of the following correctly describe a 'portfolio' in career terms?

A. A wallet for keeping money

B A collection of your work samples, projects, certificates, and achievements that demonstrates your skills and value to potential employers or clients

C. A government document for job seekers

D A digital portfolio on LinkedIn, GitHub, or Behance dramatically increases your visibility to employers

Correct: B | D

10. Which of the following are important financial habits for a young Kenyan starting their first job or business?

A. Spending all earnings to enjoy life while young

B Saving and investing a portion of every income — even small amounts — consistently from the start, using tools like M-Pesa savings, SACCOs, or bank accounts

C. Borrowing money to invest immediately

☒ KES 500/month saved from age 18 grows to over KES 1.4 million by age 60 through compound interest

Correct: **B** | **D**

Lesson 20 — UTIs

1. Which of the following correctly describe a UTI (Urinary Tract Infection)?

A. A sexually transmitted infection only

☒ B. An infection of any part of the urinary system by bacteria

C. A skin condition

☒ D. The most common UTI cause is E. coli bacteria — normally gut bacteria transferred to the urethra

Correct: B | D

2. Which of the following are common symptoms of a UTI?

A. Chest pain

☒ B. A burning sensation when urinating and frequent urge to urinate

C. Hair loss

☒ D. Cloudy, dark, or foul-smelling urine is also a classic sign of a UTI requiring attention

Correct: B | D

3. Which of the following explain why girls and women are more prone to UTIs than boys?

A. Their immune systems are weaker

☒ B. The female urethra is shorter, making it easier for bacteria to reach the bladder

C. They drink more water

☒ D. Hormonal changes during menstruation can temporarily affect the bladder's natural defences against infection

Correct: B | D

4. Which of the following are effective ways to prevent a UTI?

A. Avoiding all liquids

☒ B. Drinking plenty of water, urinating frequently, and wiping front to back

C. Taking antibiotics every week as prevention

☒ D. Urinating after sexual activity helps flush bacteria from the urethra, reducing UTI risk significantly

Correct: B | D

5. Which of the following explain how an untreated UTI can become dangerous?

A. You drink too much water

☒ B. The infection spreads to the kidneys (pyelonephritis)

C. You stop eating sugar

☒ D. Untreated kidney infections (pyelonephritis) can cause permanent kidney scarring and even sepsis

Correct: B | D

6. Which of the following correctly describe what cloudy, dark, or foul-smelling urine may indicate?

A. Good health

☒ B. Dehydration or a possible UTI

C. Too much vitamin C

☒ D. Consistently dark or cloudy urine should be evaluated to rule out infection or kidney disease

Correct: B | D

7. Which of the following habits increase UTI risk?

A. Drinking 8 glasses of water daily

☒ B. Holding urine for very long periods and wiping back to front

C. Wearing cotton underwear

☒ D. Wearing tight synthetic underwear traps moisture creating conditions where bacteria multiply quickly

Correct: B | D

8. Which of the following correctly describe the treatment for a confirmed UTI?

A. Drinking lemon juice and hoping it clears

☒ B. A prescribed course of antibiotics completed in full

C. Ignoring it until it goes away on its own

☒ D. Stopping antibiotics early — even if symptoms improve — allows resistant bacteria to survive and cause relapse

Correct: B | D

9. Which of the following correctly describe how recurrent UTIs (more than 3 per year) should be managed?

A. Accepted as normal

☒ B. Investigated by a doctor — they may indicate an underlying condition

C. Treated only with home remedies

☒ D. Risk factors for recurrent UTIs include diabetes, kidney stones, and anatomical abnormalities

Correct: B | D

10. Which of the following are simple daily habits that reduce UTI risk?

A. Eating more salt

☒ B. Drinking at least 8 glasses of water daily

C. Avoiding all physical activity

☒ D. Vitamin C-rich foods (oranges, tomatoes) make urine more acidic, helping prevent bacterial growth

Correct: B | D

Lesson 21 — Shisha

1. Which of the following are TRUE about how much tar one shisha session produces compared to smoking one cigarette?

- A. 5 times more
- B. 10 times more

☒ C 36 times more

☒ D A single shisha session also delivers far more carbon monoxide than a single cigarette

Correct: C | D

2. Which of the following explain why the water in a shisha pipe does NOT make it safer?

- A. The water evaporates before filtering anything

☒ B Water only cools the smoke — toxins like CO, nicotine and tar still pass through unchanged

- C. Water turns chemicals into harmless vapour

☒ D Sweet fruit flavours and pleasant smell of shisha are marketing tactics that mask toxic chemicals

Correct: B | D

3. Which of the following infections can be transmitted by sharing a shisha pipe?

- A. Only herpes simplex virus
- B. Only tuberculosis

☒ C Oral herpes, COVID-19, and other respiratory viruses can spread through shared mouthpieces

☒ D Tuberculosis, herpes, hepatitis and respiratory infections

Correct: C | D

4. Which of the following correctly describe how much nicotine one shisha session delivers?

- A. Equivalent to half a cigarette
- B. Equivalent to 2 cigarettes

☒ C Equivalent to 10 cigarettes

☒ D Shisha tobacco contains nicotine — regular users develop dependence just as they would with cigarettes

Correct: C | D

5. Which of the following correctly describe shisha's status under Kenya's Tobacco Control Act 2007?

- A. Is completely unregulated and legal for all ages

☒ B Is covered under tobacco law — sale to under-18s is illegal and smoking in public is banned

- C. Is legal for people over 16

☒ D Shisha lounges serving minors or operating near schools face fines and closure under Kenya's tobacco law

Correct: B | D

6. Which of the following toxic metals found in shisha smoke come primarily from the hookah equipment itself?

☒ A. Lead and arsenic from the metal pipes and fittings

☐ B. Nicotine from the tobacco

☐ C. Tar from the flavouring chemicals

☒ D. Carbon monoxide from charcoal combustion is a major toxic product — it binds haemoglobin reducing oxygen

Correct: A | D

7. Which of the following accurately describe herbal (tobacco-free) shisha?

☐ A. Completely safe because it contains no tobacco

☐ B. Slightly less harmful but still contains some nicotine

☒ C. Still harmful because charcoal combustion produces CO, benzene and other toxins regardless of tobacco

☒ D. Herbal shisha without tobacco still burns charcoal — all CO and benzene risks fully remain

Correct: C | D

8. Which of the following are accurate factual responses to the claim "Shisha is just flavoured steam — not a real drug"?

☐ A. Agree and try it once to be polite

☐ B. Ignore them and walk away without explanation

☒ C. Share a fact: "One shisha session = 10 cigarettes of smoke — I'll pass, thanks"

☒ D. Say: "Actually, shisha smoke contains nicotine, tar, and carbon monoxide — one session equals 10 cigarettes of nicotine and 36 cigarettes of tar."

Correct: C | D

9. Which of the following explain why benzene found in shisha smoke is particularly dangerous?

☒ A. Is a known cause of leukaemia (blood cancer)

☐ B. Makes the smoke smell unpleasant

☐ C. Causes immediate respiratory failure

☒ D. Benzene from charcoal also damages bone marrow, suppressing the production of blood cells

Correct: A | D

10. Which of the following are TRUE about a hookah lounge's "nicotine-free, organic fruit shisha" product?

☐ A. Is completely safe as it contains no nicotine or tobacco

☒ B. Still exposes users to charcoal toxins including CO, benzene and heavy metals from equipment

☐ C. Is legal to sell to under-18s because it has no tobacco

☒ D. Herbal shisha carries the same lung cancer, cardiovascular, and infection risks as tobacco shisha

Correct: B | D
