Adolescent Reproductive Health Information Support & Empowerment

DRUG ABUSE & PREVENTION

Alcohol & Chang'aa

Student Study Guide & Quiz Answer Key

Module:	Drug Abuse & Prevention
Lesson:	Alcohol & Chang'aa
Quiz:	25 marks (10 MCQ + 5 Fill-in-blanks + 3 Short Answer)
Pass Mark:	15/25 (60%) — Certificate awarded at 60%+
Languages:	English Kiswahili Sheng

Learning Outcomes

By the end of this lesson, you will be able to:

1. Define alcohol and explain how ethanol affects the brain and body
2. Identify the unique dangers of chang'aa, busaa and illicit brews in Kenya
3. Explain how alcohol causes addiction and the stages of alcohol use disorder
4. Apply DARE refusal skills to real Kenya social pressure scenarios
5. Identify support resources including NACADA for alcohol problems

Quiz — Answer Key

Total: 25 marks | Pass: 15/25 (60%) | Certificate at 60%+

Part A: Multiple Choice (10 marks)

1. 1. The most dangerous aspect of chang'aa compared to commercial beer is:

- ☐ A. It is much cheaper to produce
- ☐ B. Possible methanol contamination causing blindness and death
- ☐ C. It has a stronger flavour
- ☐ D. It is only sold in slum areas

2. 2. Which brain region controls judgment and decision-making — and is most damaged by alcohol in adolescents?

- ☐ A. Cerebellum — controls balance
- ☐ B. Hippocampus — stores memories
- ☐ C. Prefrontal cortex — judgment, impulse control, planning
- ☐ D. Amygdala — processes fear

3. 3. Njeri, 17, is told "One beer won't hurt — everyone drinks at our age." The BEST response using DARE is:

- ☐ A. "No thank you — I'll have a soda instead. I need to be sharp for training tomorrow."
- ☐ B. Drink one to avoid awkwardness and fit in
- ☐ C. Pretend to drink but pour it away
- ☐ D. Ask for advice from the group before deciding

4. 4. At what blood alcohol concentration does driving become illegal and dangerous in Kenya?

- ☐ A. Above 0.15% BAC
- ☐ B. Above 0.08% BAC
- ☐ C. Above 0.20% BAC
- ☐ D. Any alcohol at all — zero tolerance

5. 5. Which physical symptom indicates the MOST serious stage of alcohol intoxication requiring emergency care?

- ☐ A. Slurred speech and impaired coordination
- ☐ B. Flushed face and increased confidence
- ☐ C. Nausea and stumbling
- ☐ D. Unconsciousness or unresponsiveness

6. 6. NACADA's free, confidential helpline number for alcohol problems is:

- ☐ A. 0800 720 715
- ☐ B. 1190
- ☐ C. 0800 723 253
- ☐ D. 999

7. 7. The main reason adolescents are MORE at risk from alcohol than adults is:

- ☐ A. Their brains are still developing, making them more vulnerable to addiction and cognitive damage
- ☐ B. They weigh less so alcohol affects them faster
- ☐ C. They mix alcohol with soft drinks which increases toxicity

☐ D. Their liver cannot process alcohol at all

8. 8. Kevin finds his older brother shaking badly in the morning and refusing to eat until he has had a drink. This behaviour MOST likely indicates:

☐ A. He is hungry and needs food

☐ B. He is experiencing a severe hangover

☐ C. He has alcohol dependence and is experiencing withdrawal symptoms

☐ D. He is trying to increase his appetite with alcohol

9. 9. Which statement about "moderate drinking" is MOST accurate for Kenyan adolescents?

☐ A. 1–2 drinks per day is safe for anyone over 16

☐ B. Mixing alcohol with food eliminates health risks

☐ C. Only distilled spirits are harmful — beer and wine are safe

☐ D. There is no safe level of alcohol for adolescents under 18

10. 10. Amina notices her classmate Juma smells of alcohol at 8am, has been missing classes, and sold his phone. The MOST appropriate first step is:

☐ A. Report him to the headteacher immediately without talking to him first

☐ B. Talk to Juma privately and with care: "Nakujali — nimeona mabadiliko, je, uko sawa?"

☐ C. Ignore it — it is not your problem

☐ D. Tell all his friends about his problem

Part C: Short Answer (13 marks)

1. The toxic alcohol found in illicit brews like chang'aa that causes blindness is called _____. (3 marks)

2. Explain THREE specific ways that regular alcohol use by a 17-year-old damages their developing brain. (4 marks)

3. Your friend has drunk too much chang'aa at a party and is now unconscious. Write exactly what you would do step by step. (3 marks)

4. Using NACADA statistics, explain why alcohol is described as the most serious drug problem facing Kenyan youth. (3 marks)
