Peer Education

Student Study Guide & Quiz Answer Key

Module:	Life Skills
Lesson:	Peer Education
Quiz:	25 marks (10 MCQ + 5 Fill-in-blanks + 3 Short Answer)
Pass Mark:	15/25 (60%) — Certificate awarded at 60%+
Languages:	English Kiswahili Sheng

Learning Outcomes

By the end of this lesson, you will be able to:

1. Define peer education and explain why it is effective
2. Identify the skills and ethics of a peer educator
3. Describe participatory peer education methods
4. Apply referral and positive influence in real situations

Slide 2: What Is Peer Education?

Peer education harnesses the power of youth-to-youth connection to share life-saving health knowledge.

KEY TERM: Peer Education

A process where trained young people share health and life skills knowledge with their age-mates using participatory methods.

Why Peers?	Evidence
Shared language and culture	Messages feel real and relevant
Higher trust than adults	Peers are more likely to listen
Similar life stage	Understands the actual pressures faced
Safe, non-judgemental space	People open up more honestly

Slide 3: Skills of a Peer Educator

Good peer educators are made, not born. These skills can all be learnt and practised.

■ ■ ■ Limits of Peer Education

■ Peer educators are NOT counsellors or doctors. When a peer needs medical help, is in danger, or discloses abuse — ALWAYS refer to a trusted adult or professional.

Slide 4: Methods & Ethics

How you share information matters as much as what you share.

KEY TERM: Ethics

Do no harm. Be accurate. Be non-judgmental. Maintain confidentiality. Know your limits. Always refer when in doubt.

Method	Best For
Drama & Role-play	Scenario practice, scenario consequence
Discussion Circles	Open sharing, myth-busting
Stories & Case Studies	Making abstract issues concrete

Method	Best For
Question Box	Anonymous sensitive questions
Peer mentoring (1-on-1)	Individual support and follow-up

Slide 5: Spreading Positive Influence

One peer educator who reaches 10 peers — and those 10 each reach 10 more — creates a ripple of 100 changed lives.

Baraka, 17, started a peer health club at his school after training with a local NGO. Within one term, 40 students had joined. Three were referred to a counsellor for mental health support, two got HIV tests, and one reported GBV. His teacher said: 'Baraka changed the culture of this school.'

Slide 6: Module Video

Watch carefully, then continue to the scenarios.

Slide 7: Real Talk — What Would You Do?

Pick your choice and see the consequence.

Slide 8: Starting Your Own Peer Influence

You do not need a title to be a peer educator. Every conversation is an opportunity.

Quiz — Answer Key

Total: 25 marks | Pass: 15/25 (60%) | Certificate at 60%+

Part A: Multiple Choice (10 marks)

1. 1. Peer education means:

- ☐ A. Teachers educating younger students
- ☒ B. Young people sharing health and life knowledge with their age-mates
- ☐ C. Parents advising their children
- ☐ D. Online tutorials only

2. 2. Peer educators are effective because:

- ☐ A. They are older than the students
- ☒ B. They share similar experiences and language, making messages relatable
- ☐ C. They are paid professionals
- ☐ D. They have medical degrees

3. 3. A good peer educator must first:

- ☐ A. Be popular on social media
- ☒ B. Have accurate knowledge and model healthy behaviour
- ☐ C. Know everyone's secrets
- ☐ D. Be the class prefect

4. 4. Confidentiality in peer education means:

- ☐ A. Sharing everything you hear with friends
- ☒ B. Keeping personal information private unless there is a safety risk
- ☐ C. Never keeping any secrets
- ☐ D. Telling teachers everything
